SIGNS. CHARLES PETERSON. SIGNS.

It Will be Held at Beck's Hot Springs-Rather Peculiar Proceedings.

That "we are a peculiar people," there

can be little doubt, and that the peculiarity is not confined to one side of the political fence, is also apparent. On Tuesday evening, the advance agent of the trap shooters now in this city, made application to the city council for the use of Washington square, upon which to give an exhibition of their skill. The council, upon the recom-mendation of the attorney, refused to grant the desired permission, because the dis-charge of firearms within the limits of the city was contrary to the city ordinances. Coming from the political party whose Flambeaux club had been allowed to carry shotguns in its parades during the late shotgans in its parades during the late political campaign and discharge them at an interval of about every three minutes, the denial of the petition caused considerable of a surprise. The gentleman making the request withdrew, and, of course, it was thought by those in attendance at the council that that ended the matter. Later, however, these gentlemen visited the various newspaper offices and had all reference to the refusal expunged from the reports of the council proceedings, saying they had been council proceedings, saying they had been told by the attorney that the exhibition could be given. The request was granted, and the advertisement appeared the follow-ing morning to the effect that the exhibi-tion would be given on Washington square to-day at 2 p. m. All went well until yes-terday, when the manager and promoters of the exhibition received word that the ex-hibition must not be held, and that if these instructions were disregarded every man would be arrested! This was a paralyzer. Arrangements, however, have been made whereby the contest is to take place at Beck's Hot Springs to-day at 2 p. m., the train leaving the Utah Central depot at 1:30 p. m.
